— THE TRANSCENDING ERA —

15/02/2016

Our modern era, yes, it is in a word, a transcending era, into the new modern world of science and technology. In the present sophisticated world we have been coming through a number of new modern technologies and facilities. Science and technology indeed plays a significant role in our day-to-day life activities. We are smelling
the fragrance of comfort and luxury only through the advancement of technology, the actual development of a country apart from the economic development. So no wonder now a country experiences the dignity and honour of its people."
Technology at its most basic level provides students to improve their knowledge, expand their curiosities and go far beyond the horizon of knowledge, making them aware that knowledge has no horizons and no limits, as said by the famous author, A Brief History of Time, Stephen Hawking. Students are provided with computers and laptops in their classes so such a manner that they can refer to Wikipedia and websites regarding their study works. Students are in a lot civilised world. So, students make better use of this world class technological facilities and services provided to you and ensure that education is attained by you in a complete, fruitful and crystal clear manner, which should be used to serve the society as "Paulo Coelho, the renowned author of Alchemist" said, "Move with a world, moved beyond the world."

A boy was playing in the park. He saw a small sparrow sitting on a stone. He went near it, still it didn’t fly. He again went much closer to it, but it didn’t fly. For a moment he was surprised. Usually birds fly. In fear, when any person comes near it. But this sparrow, why is it not flying? He thought for a while. He then thought that it is better to find the cause for why the sparrow is not flying, rather than to think and waste time. He just touched the feathers of sparrow. It was shivering. And he was shocked to see that its leg was wounded very badly. It was shivering due to pain, in fact. He didn’t know what to do then. He tore a piece of cloth from his shirt and cleaned the wounded part and tied gently. Still the poor sparrow was shivering. He gently touched the sparrow, took a shot and placed hot cotton kept...
on his palm. He very carefully took it to his house.

He had a younger brother. He was very naughty.

The boy had a fear that sometimes his younger brother may harm the sparrow so he kept the sparrow in his room. He gave food like grains etc. to sparrow.

Every day he cleaned the leg of sparrow and tied it with a new cloth. He prepared a nest for sparrow placed at: It was placed near the window in such a way that it could feel the fresh air and see things happening there. Day by day, sparrow improved its health condition. But at the same time, he was very tensed of a thing that about his younger brother Gopu. Gopu was a very mischievous boy studying in 1st standard. Ramu, his brother did not show the sparrow at least. He was actually feared in showing the sparrow to Gopu. Quickly after coming from school he ran towards his room near the window and feels joy in seeing the sparrows. Sometimes, he even taught a song for the sparrow.
After a few days, he observed that the sparrows were not eating anything. Nor food grains – neither drinking water. Ramu felt very upset, in this condition of sparrows. Days passed and sparrow was feeling more weak and clumsy. Even though its wound had healed and it can fly, it didn’t fly even within the room. Ramu also was very disappointed. He didn’t take the food properly. He didn’t do homework daily, spent his days thinking upon the little sparrow. His parents worried about him.

Gopi also came to know about the situation. One day, Gopi went near Ramu and sat beside him. Ramu at first pushed him and said he didn’t want to talk with him. Gopi again went near him and requested him to hear calmly what he wanted to talk. Gopi said “Hey, brother Ramu, I know your problem. Don’t be sad. I have the true remedy for it. I can give you the solution, trust me”. In such a desperate condition, Ramu felt some relieved by hearing such words from Gopi. He asked, “Hey Gopi, say...”
say the remedy, I can do any help for you in return, whatever you ask, please tell my brother.” Then Gopi said, “The one and only solution is set it free. Our teacher has taught that birds love to live free. They don’t like to be caged.” Ramu felt that it was the right way. Gopi said was correct, birds don’t like to live in a closed space; they wanted to fly in open air. The very next moment itself, he opened the window of the room and set the sparrow free. Immediately, sparrow flew with joy and enthusiasm. It became more pleasant and active. Ramu thus realised the fact that one needs freedom in a more amount than love, because freedom is one’s right...

Sometimes, we learn from our younger too. Because, they are innocent and honest. Also, freedom of an organism cannot be denied by anyone. Only God has got the right...

Neighbours must have a concealed relationship. But in the case of Lomov and Natalya, it was different. Lomov and Natalya were very rich people. They were very wealthy people and had a competition within them on the subject of wealth. Both were neighbours. Lomov, in a critical age of 35, thought that he had to marry and he thought that Natalya was not bad looking, an excellent housekeeper. So he decided to propose to her. Character Sketch of Mrs. Van Daan.

Mrs. Van Daan is a character of "A" diary of a young girl written by Anne Frank. It is a very heart-touching diary and experiences of Anne Frank published in 1947. It says about the Nazi ruler Hitler's rule and the sufferings of Jewish people. It is the only evidence of Hitler's rule. Anne Frank, in her 13th age, had written one of the best novels and this book captured minds of a lot of people.

Anne Frank, her father Otto Frank, her mother Edith Frank, her sister Margot, family friend Mr. Van Daan, Mrs. Van Daan, their son Peter, and a doctor Mr. Bussch. They lived in the "Secret Annex." Out of these people, Anne disliked the worst Mrs. Van Daan. She had
such a bad character. She flirts with her father also. She can't see this. Her character makes her father irritate, Peter annoying and her mother angry towards Mrs. Van Daan. Mrs. Van Daan didn't like Anne. She always showed anger and dislike towards Anne. Her behaviour made Anne to comment that "There is no smoke without fire." The reason why she comments like this is, Mrs. Van Daan says that Anne is forward. Anne says, why she feels like this is she is more forward than Anne. And Mrs. Van Daan says that if Anne wears short dresses, Anne says that, why she feels like that is because she wears even shorter dresses. And if she says that there is no smoke without fire, Anne calls Mrs. Van Daan stupid and a flirt. It is only because of Mrs. Van Daan that Anne had to stage the golden rule, that is to laugh at everyone and not allow anyone to act upon yourselves. Even though, it seems a lot of selfishness, it is the right way. Mrs. Van Daan is jealous of Anne that, Peter is more...
Confides and close to Anne then to her. She is sad because her husband doesn't flirt with her. She is sad that no one likes her, no one hear her problems. She said that she had suicide, prison, etc. She was desperate. But the fact is that no one cares her. No one make her, because of her behaviour. Mrs. Van Daan gets angry with Anne very fastly. She calls Anne, Father, Chaco with Boys and so Jon. This makes Anne annoy with her. She is the only one in the "Secret Annex" with whom Anne holds this much dislike and angry. Mrs. Van Daan has got a bad character. She says about Mrs. Anne very badly. Amy says all these things too her father. Father says to never mind it. Anne cannot adjust with Mrs. Van Daan. She criticized Anne for every silly things too. Therefore the opinion of Amy about Mrs. Van Daan was most good. We, readers can also understand why Anne strange such a distance towards Mrs. Van Daan. It is now
clear that Mrs. Van Daan cannot occupy a space in the "good book" of Anne Frank.

Thank you.
